SARCORAMPHUS GRYPHUS
PREAMBULO

Propriamente, na moderna accepção do termo, não é um Catalogo do «Museu Braga Junior» o que se vae ler.

Trabalho feito em prazo assaz restricto, para satisfazer o desejo de pretendentes extrangeiros, elle de modo algum póde revestir-se do rigor scientifico que lhe cabe.

Em suas linhas geraes, todavia, este escorço representa methodicamente o que é e o que vale o Museu, do qual destacamos, como adeante se verá, as importantes collecções dos *Trochilideos* e dos *Coleopteros*, — rarissimas na opinião de notaveis zoologistas que as vizitaram e para as quaes chamamos a attenção dos entendidos e estudiosos.

Áquelles, mui especialmente, recommendamos o caracter americano — quasi

sul-americano — do conjuncto. A escassez de exemplares pertencentes á fauna do Antigo Continente dá ensejo a conferir-lhe tal qualidade. Foi esse, com effeito, o designio do fallecido proprietario do Museu, que, devemos confessar, o executou em grande parte com raro talento e rarissima tenacidade.

Os meus sinceros agradecimentos á familia do saudoso e illustre brazileiro, pelo muito que me auxiliou na organização do catalogo.

Porto — 30 — 4 — 905.

Rozo Lagôa.

Observação preliminar

E' perfeito o estado de conservação de todos os animaes, quer Vertebrados quer Articulados, (Insectos).

Aquelles como estes foram preparados e montados pelos conhecidos naturalistas francezes Deyrolles e Filhos, — uma garantia de perfeição e arte, como, aliás, o demonstram as estampas que adornam o texto. Os primeiros estão distribuidos em 10 vitrinas de desenho sobrio; os segundos, em 425 gavetas com tampas de vidro.
Mammalogia

Quadrumanos — Mycetes seniculus, Myc. ursinus, Ateles belzebuth, At. hypoxanthus, Lagothrix Humboldti, Cebus hypoleucus, Ceb. robustus, Ceb. apella, Ceb. capucinus, Ceb. niger, Ceb. cirrifer, Callithrix nigrifrons, Hapale Rosalia, Iacchus auritus. — Pithecus.

Carnivoros — Felis yaguarundi, Fel. concolor, Fel. onça, Leopardus tigrinis, Leop. maracaya, Canis braziliensis, Lutra macrodis, Gallictis barbara, Gal. vittata, Memphitis chincha, Nasua narica, Cercoleptes caudivolvolus, Procyon cancrivorus.

Marsupios — Didelphis opossum, Did. cancrivora, Did. virginiana, Did. nudicauta, Did. philander, Chironectus variegatus.

Roedores — Myopotamos coypu, Dasyprocta aguti, Spiggurus mexicanus, Caviá apereá, Echinomys dactylinus, Hydrochœrus capibara, Sciurus cinerens, Hystrix couy, Cœlogenis paca.

Desdentados — Myrmecophaga jubata, Orycteropus didactylus, Dasypus novemcinctas, Das. gigas, Tamanduá tridactyla, Bradypus didactylus, Brad. tridactylus.

Multungulados — Dicotyles torquatus, Tapirus americanus, Tap. terrestris.

Ungulados — Blastocerus campestris, Subulus rufus, Cervus nemorivagus, Cer. rufus.

Mammiferos: exemplares (machos, femeas e filhos). 120

Fazem parte d'esta Secção:

a) Mammiferos e peças anatomicas (em alcool);
b) Esqueleto de cheiroptero, esqueleto de desdentado; Craneos de quadrumanos, carnivoros, marsupios, roedores, desdentados, multungulados, ungulados, e dentes de cetaceo;
c) Armações de ungulados;
d) Mumias de carnivoro e roedor (mumificação natural).

Ornithologia

Rapaces — Sarcoramphus gryphus, Cathartes atratus, Cath. aura, Ibycter australis, Iby. chinchinima, Buteo melanoleucus, Morphnus urubitinga, Spizaëtus rutilans, Spi. atricapillis, Spi. ornatus, Aquila heliaca, Ictinea plumbea, Micrastur guerrilla, Falco sparverius, Fal. aurantius, Fal. tinunculus, Surnia pulsatrix, Bubo virginianus, Bub. magellanicus, Athene cunicularia.

Zygodactylos — Ara severus, Ar. maracana; Chrysotis albifrons, Ch. Finschi, Ch. guatemalœ, Ch. Levaillanti, Ch. farinosa, Ch. coccineifrons, Ch. auropalliata, Ch. autumnalis, Ch. mercenaria, Amazonis bicolor, Pionus menstruus, Pi. tumultuosus, Pi. senilis, Pi. fuscus, Pi. hœmatotis, Eupsittula Petzii, Eup. canicularis, Eup. aurens, Eup. melanotis, Eup. melanocephala, Androglossa Bodini, Triclaria cyanogaster, Pyrrhura vittata, Py. molinœ, Py. callipterà, Conurus solstitialis, Con. aztec, Con. frontalis, Con. Petzii, Psittacula rhodocephala, Psi. passerina, Psi. Waglerii, Psi. conspicilata, Nestor vitellinius; Brotogerys chrysopogon, Br. tiriacula, Br. tui, Caica Barrabandi, Bolborhynchus monachus, Sittace chrysopterus, Urochroma batavica, Picus rubricollis, Pic. jumana, Pic. elegans, Pic. rufus, Pic. flavius, Pic. campestris, Pic. syeramatus, Pic. affinis, Pic. birilatus, Pic. squamilatus, Pic. exilis, Dryopicus polens, Dry. scapullaris, Triopicus Wilsoni, Tri.

meridionalis, Celeopicus flavescens, Celens flavescens, Elens badividus, Leucopicus dominicana; Coccygus cayanus, Chrysococcyx intermedius, Chry. auratur, Chry. Klaasi, Dromococcyx phasianellus, Rhynachuchus sulphurescens, Piaya mexicana, Pi. mallari, Eudynamis orientalis, Centropus carolinus, Cent. monachus, Cent. rubriventris, Cent. sub-elegans, Crotophaga major, Crot. sulcirostris, Crot. ani, Lamprocollis chalcurus, Aracari laminorostris, Ramphastus Toco, Rham. piscivorudo, Rham. ambiguus, Rham. Cuvieri, Rham. maximus, Rham. ariel, Pteroglossus unguirostris, Pter. regalis, Coriphilus, Buco versicolor, Caloramphus prasinus, Cal. albivita, Micropogon peruvianus, Malacoptila nigrifusca, Mal. frontalis, Capito melanotis, Cap. peruvianus, Cap. Hartlaubi, Cap. Cuvieri, Monosa peruviana, Mon. flavirostris, Chelidoptera braziliensis, Galbula albirostris, Galb. paradisea, Galb. fuscicapilla, Galb. chalcocephala, Galb. maculicauda, Galbalcyrhynchus monachus, Trogon collaris, Trog. mexicanus, Trog. puellus, Trog. variegatus, Trog. melanura, Trog. elegans, Trog. personatus, Trog. virides, Trog. pulchellus, Trog. auriceps, Trog. caligatus, Trog. chionurus, Curucu anniceps, Cur. rosalbir, Curucuyi massena, Musophaga violacea.

Syndactylos — Momotus Levaillanti, M. braziliensis, Prionites momota, P. carnibiceps, Merops ornatus, Mer. bulboki, Mer. bicolor, Mer. apiaster, Alcedo torquata, Alc. bicolor.

Passeres

Fissirostros — Nyctidromus grallarius, Nyct. Guayanensis, Nyctibuis cornutus, Nyct. pectoralis, Caprimulgus diurnus, Cap. torquatus, Cap. Nattereri, Cap. nacunda, Hydropsalis creagra, Hyd. segmentatus, Chordeiles sapiti, Chord. hirundinacea, Chord.

occellatus, Chaetura zonaris, Hirundinacea ferruginea, Brachypus bimaculatus.

Tenuirostros — Epimachus magnus, Paradisea papuana, Cinnyris angolensis, Cin. tuliginus, Cin. splendes, Cin. pulchellus, Nectarina chloropygia, Nect. formosa, Spathura luxuosa, Prosthemadua novæ zelandiæ, Furnarius rufus, Furn. minor, Otornis chrysolaema, Aerophanus orthonix, Dacnys cyanocephala. Dac. spiga, Dac. plumbea, Dac. cayana, Dac. cyanater, Dac. angelica, Tatac tricolor, Cœreba cœrulea, Cœr. brevirostris, Cœr cyanea, Oxyramphus flammiceps, Ptilotis auricornis, Conirostrum sitticolor, Con. albifrons, Xenops rutilans, Certhiola flaveola, Diglossa personata, Dig. exterrima, Dig. baritula, Dig. sittoides, Synallaxis cinamomea, Syn. elegans, Sittasomus erythacus, Cyanositta turcosa, Anabazenops guttulatus, Lochmias nematura, Loch. squamulata, Loch. nematura, Thryothurus mexicanus, Thry. rutalbus, Talapiot, Cinclocerthia, Dendrocolaptes, Xiphocolaptes albicollis, Picolaptes lacrymiger, Campilopterus zonatis.

Trochilideos *

Phaetornis Eurynome, Ph. cephalus, Ph. symatophone, Ph. superciliosus, Ph. Emiliæ, Ph. Guyi, Ph. Yaruqui, Ph. anthrophilus, Ph. nispidus, Ph. squalidus, Pygmornis longuemareus, Pyg. strugularis, Pyg. davidinus, Pyg. pygmæus, Pyg. nigrocinctus, Grypus nævius, Glaucis hirsutus, Gl. mazeppa, Gl. affinis, Gl. Ruckeri, Gl. melanura, Gl. Dhoni, Gl. æneus, Eupetonema macroura, Eup. hirundo, Campilopterus latipennis, Cam. Delattrei, Cam. rufus, Cam. luzulus, Cam. largipennis, Cam.

* Damos logar distincto a esta familia dos Tenuirostros pelo motivo que julgámos dever mencionar no preambulo.

As especies raras vão em egypcio.

phaenopeplus, Aphantochroa cirrochloris, Lampornis grammineus, Lam. iridornis, Lam. mango, Lam. porphyrorus, Heliomaster longirostrus, Hel. Stuartæ, Hel. constante, Leucippus chionogaster, Thaumatias brevirostris, Th. Linnei, Th. viridifrons, Th. compsa, Th. cœruleiceps, Th. albiventris, Amazilia Graysoni, Am. cinamomea, Am. Dumerilii, Erythronota Feliciæ, Hylocharis saphirina, Hyl. saphirina (albino), Hyl. Portmanni, Hyl. cyanea, Chrysuronia Œnone, Chry. elicæ, Chry. cyanocephala, Eucephala cœrulea, Euc. Wiedi, Euc. chlorocephala, Chlorostilbon Portmanni, Chl. splendidus, Florisuga mellivora, Flor. fusca, Flor. flabellifera, Oreotrochillus estellæ, Oreo. pichinchæ, Oreo. Chimborazo, Petasophorus serrirostris, Pet. anais, Pet. thalassina, Pet. cyanotis, Pet. Delphinæ, Thalurania fuscata, Th. glaucopis, Th. nigrofasciata, Th. columbica, Th. verticeps, Th. Eryphille, Th. refulgens, Chrysotampis moschitus, Helisothrix auriculatus, Hel. auritus, Clytolaema æquatoralis, Clyt. rubinea, Clyt. aurescens, Docimactes ensiferus, Cœligena Henrici, Cœl. Luteciæ, Cœl. Clemanciæ, Cœl. typica (Lampropygia Cœligena), Lamp. boliviana, Lamp. columbiana, Burcieria torquata, Bur. fulgidigula.

Eriocnemis Aureliæ, Erio. Aliniæ, Erio. cupreiventris, Erio. Luciani, Erio. Godini, Erio. vestita, Erio. nigrivestris, Erio. smaragdinipectus, Erio. Mosquera, Erio. lugens, Panoplites flavescens, Pan. Matthewsi, Pan. Jardinei, Heliangelus Clarissæ, Hel. Spencei, Augastes superbus, Aug. lumachellus, Metallura pyrianthina, Met. Wieneri, Met. quitensis, Met. primolina, Met. Benoni, Adelomya cervina, Ad. maculata, Ad. chlorospela, Oxipogon Lindeni, Ox. Guerrini, Ox. cyanolœma, Lophornis reginæ, Loph. ornata, Loph. pavoninus Spathura melananthera, Schistes Geoffroyi, Doleromya fallax, Dol. sordida, Cynanthus cyanurus, Cyn. mocoa, Lesbia Gouldii, Les. Caroli. Les. gracilis, Les. Victoriæ, Rhodopis vespera, Aglæactus æquatorialis, Agl. Pamela, Agl. cupripennis, Heliactis cornuta, Helianthea porphy-

rogaster, Hel. Bonapartei, Thaumastura cora, Th. Duponti, Selasphorus rufus, Sel. platycercus, Sel. scintilla, Sel. superbus, Leucochloris albicollis, Leuc. personatus, Prymnacantha Langedorffii, Pry. Conversii, Calliphlox amethystina, Cal. Mitchellii, Leucolia niveipectis, Leu. Milleri, Leu. leucogaster, Leucaria Costæ, Entoxeres aquila, Ent. Salvini, Ent. Condaminei, Sphenoproctus pampa, Sph. curvipennis, Ramphomicron microrhynchus, Ram. Herrani, Ram. heteropogon, Chalybura Buffoni, Leucodora, niveiventris, Cirrochloris modestus, Hylonympha macrocerca, Macrocercus satirennis, Chrysobronchus veridissimus, Ch. virescens, Eulampis jugularis, Eul. Holoscenia, Ariana cyanifrons, Ar. Sophiæ, Ar. gaudati, Ar. Warsceweizi. Ar. Riefferi, Ar. erythronota, Pyrrhophaena Ceryllina, Pyr. castaneiventris, Pyr. Devillei, Pyr. veridigaster, Eupherusa eximia, Eu. nigriventris, Cyanomya Franciæ, Cy. guatemalensis, Cy. eurypterus, Aithurus polytmus, Throchilus pella, Th. pyra, Calothorax Lucifer, Doricha henicurus, Do. bryanthæ, Stellura Calliope, Euclosia Lafresnayi, Eu. Gayi, Ornismya colubis.

Oreopyra calolaemus, Or. insignis, Or. leucaspis, Microchera albocoronata, Myrtis Fanny, Xanthogenya Salvini, Eugenia imperatrix, Eugenes fulgens, Heliodoxa jacula, He. Jamesoni, He. Leadbeateri, Caleugenia eos, Pterophanes Temminscki, Diphlogœna hesperus, Heliotrypha exortis, Hypolia Leadbeateri, Lepidolarynx mesoleucus, Collipedią regis, Pilonia prunelli, Pi. Wilsoni, Pi. Conradi, Dorifera Ludoviciæ, Do. rectirostris, Do. Johannæ, Do. Euphrosinæ, Urosticte Benjamini, Baucis abeillei, Cometes sparganurus, C. Phaon, Acestura Mulsanti, A. Heliodori, Calyxenus bombus, Chæotecercus Rosæ, Steganura Underwood, Negamura melananthera, Threnectes cervinicauda, Atthes Heloisæ, Telamon Delattrei, T. stictilophus, Paphosia Helenœ, Poleonistria Vieilloti, Tricholopha Popelairii, Idos magnificus, Polemistria Verreauxi, Eustephanus Galeritus, Bellona exilis, B. cristata, Cephallepis

Delalandii, Patagona gigas, Panychlora Aliciæ, Juliamya Feliciana, Egregius Heine, Mellisuga minima, Phœolema rubinoides, Lamprolaema Rhami, Damophila Juliæ, Circe latirostris, Klais Quineti, Discura longicauda, Uralia grisciventris, Chrysogaster Heberlinœ, Heliopeadica Leucotis (esqueleto).

Trochilideos: exemplares raros, communs e duplicatas (machos, femeas e filhos) 1:900

Ninhos dos generos designados 101

Dentirostros — Menura superba, Turdus flavipes, Tur. albicollis, Thamnophilus Leachii, Tham. doliatus, Tham. major, Tham. schistaceus, Tham. nœvius, Tham. torquatus, Tham. palliatus, Petrocossyphus cyanea, Timalia maculata, Tim. nigricollis, Saxicola rubiginosa, Aremon brunnenchus, Ar. semitorquatus. Buaremon schistacus, Cercopitta lepidopleura, Ampelis rubricristatus, Amp. cayana, Amp. cincta, Amp. atropurpurea, Amp. carolinensis, Amp. pompadora, Formicarius moelinger, Mimus telerox, Saltator cœrulescens, Salt. striapectus, Salt. atriceps, Salt. magna, Tænioptera nengita, Tæn. menyctus, Tyrannus rufinus, Tyr. melancholicus, Tyr. cellurus, Tyr. intrepidus, Chasmorhynchus nudicollis, Rupicola crocea, Rup. peruviana, Cyanogarrulus coronatus, Cyan. cristatus, Irena puella, Tyrannula superciliosa, Tyr. crinita, Tyr. diadema, Tyr. cinamomea, Tyrannulus nigricapillis, Laniarius cruentatus, Attila braziliensis. Cyclorhynchus olivacens, Syalia mexicana, Myarchus rusticus, Myar. cinerens, Tanagra archiepiscopus, Tan. episcopus, Tan diaconus, Tan. rubra, Tan. punctata, Tan. thoraxica, Tan. cyanoptera, Tan. abbas, Tan. boliviana, Tan. cayana, Tan. capristata, Tan. lunulatus, Tanagralla iridina, Rhamphocelus sanguinolentus, Rhamph. brazilius, Rhamph. dorsalis, Glossopitta australis, Pyranga rubriceps, Pyr. rubra, Pyr. erythromelas, Pyr.
œstiva, Calliste aurulenta, Call. guttulata, Call. nigricincta, Call. labradorides, Call. boliviana, Call. larvata, Call. gyroloides, Tachyphonus coryphœus, Tach. surinamensis, Tach. luctuosus, Tach. quadricolor, Tach. loricatus, Pipra auricapilla, Pip. coronata, Pip. coracini, Pip. pareola, Pip. leucocillari, Pip. isidori, Pip. striolata, Pip. galeata, Pip. aureola, Pip. erythrocephala, Pipridea melanonota, Pipreola Riefferi, Procnias ventralis, Proc. tersa, Proc. occidentalis, Orthogenis virides, Aglaia paradisca, Stephanophorus leucocephalos, Bettylus picatus, Cissopis leveriana, Muscivora Swainsoni, Euphone pectoralis, Euph. violacea, Euph. trinitatis, Euph. minuta, Euph. nigricollis, Euph. xanthogastra, Euph. lamirostris, Artamus leucorhynchus, Chlorophone atricapilla, Chlor. virides, Calyptura cristata.

Regulus satrapa, Reguloides calendula, Malurus Lamberti, Furmicivora scutata, Furm. ornata, Cirrhipipra filicanda, Setophaga vulnerata, Set. ruticilla, Set. ornata, Set. ruficorata, Set. verticalis, Chiroxiphia caudata, Milvulus tyrannus, Oriolus galbula, Or. larvatus, Lichenops perspicillata, Ptilochloris remigralis, Ptilogonyx cinerens, Sylvicula braziliana, Sylv. striata, Sylv. virens, Sylv. icterocephala, Babileuteros coronatus, Dendroica palmarum, Myonectes rufiventris, Rhamphocænus melanocephalus, Hylophilus poccildi, Euscarthmus granadensis, Herpsilochmus rufis, Myrmotherula gularis, Platyrhynchus nuptaceus, Plat. albigularis, Plat. cancroma, Triccus Delatieldi, Todirostrum cinerens, Vireosylvia olivacea, Pachyramphus variegatus, Pachy. versicolor, Pachy. polycropteros, Myobuis sulphurens, Elœnea cayennensis, Thamnomanes cæsius, Lanius atricapillus, Sericornis osculans, Nigri virides, Tephrodornis hirundinacea, Scytalopus senilis, Meliornis novæ hollandiæ, Pithys albifrons, Conopophaga melanops, Alecturus tricolor, Muscicapa bicolor, Arundinicola leucocephala, Petroica multicolor, Anthocæra caruneulata.

Conirostros — Ptilosthomus senegalensis, Pœocephalus Senegalis, Corvinella corvinus, Telephonus circulatus, Agelaius phæniceus, Amblyrhamphus prevosti, Catamblyrynchus diadema, Quiscalus versicolor, Glaucopis cinerea, Cyanocorax cœruleus, Cyan. violacea, Cyan. cyanopogon, Cyan. incas, Cyan. pileatus, Coracias abyssinica, Sturnus unicolor, Sturnella hippocropis, Sturn. ludoviciana, Cassicus hœmorrhous, Cass. moni, Cassiculus prevosti, Icterus qualquali, Ict. parisorum, Ict. spurius, Ict. cristatus, Ict. erythrothorax, Ict. dominicensis, Ict. tibiali, Ict. auscicapillus, Ict. gyrandi, Ict. abeilles, Ict. mentalis, Ict. postulatus, Icteria auricollis, Miozetetes erythropterum, Tijuca nigra, Pendulinus banana, Pend. cucullatus, Xanthornus melanocephalus, Xanth. affini, Cyanoloxia cœrulea, Cyanol. parellina, Cyanol. çyanea, Paruaria parjularis, Tiaris cristata, Dincopis atra, Monacus Edwardus, Mon. caudei, Eythranema municincta, Pyrocephalus rubineus, Nemosia fulvescens, Nem. flavicollis, Chyrsomus icterocephalus, Chrysomitris tristis, Chrys. columbiana, Pyrrhophonia acuca, Pipilopus rubrirostris, Pip. superciliaris, Pip. ruficeps, Pip. semirufus, Pipoderus granadensis, Guiraca Ludovicina, Guir. melanocephala, Zonotrichia albicollis, Zonot. gambelli, Emberizoides sphenura, Oxycerchus vociferens, Cardinalis virginianus, Molothrus pecoris, Serinus canaria, Parula mexicana, Volatinia jacarina, Spermes cuculata, Spermophila luctuosa, Sperm. minuta, Biatus nigropoctusa, Amadina lathami, Amad. cantans, Pytelia citerior, Juneo hyenalis, Sycalis braziliensis, Estrelda sporæginthus, Est. atricapilla, Coturniculus peruvianus, Spizella pusilla, Chlorospingus verticalis.

Columbeos — Chloræenas albilina, Chlor. rufina, Columbæ speciosa, Chamaepelia grisola, Turtur chinentes, Tur. auritus, Peristera cinerea, Leptopelia erythrothorax, Streptopelia semitorquata, Stre. risona.

Gallinaceos — Lophophurus refulgens, Penelope jacutinga, Pen. superciliarius, Rhynchotus rufescens, Tinamus obsoletus, Tin. tataupa, Nothura major, Noth. maculosa, Bunasia cinricrissa, Odontophorus dentatus, Eupsychortix parvicristatus, Heteropelma turdinium, Crax globulosa.

Grallatores — Mycteria americana, Ardea candidissima, Botaurus tigrinus, Parra jaçana, Par. gymnostoma, Rallus lateralis, Ral. elegans, Ral. bicolor, Charadrius virginicus, Char. Wilsoni, Char. semipalmatus, Char. collaris, Fulica frontata, Gallinula americana, Gal. martinicensis, Aramides cayennensis, Gallinago nobilis, Macroramphus grisens, Cariama cristata, Ortalida Montagni, Sarciophorus pileata, Cancrophaga senegalensis, Porphyrula martinicensis, Ibis Leony, Ib. alvus, Rhynchæa semicollaris, Grallaria imperator, Gral. squamum, Hoplopterus cayennensis, Nyctiardea Gardenni, Strepsilas interpres, Chauna chavaria

Natatores — Sula alba, Pelecanopus cayennensis, Tachypetes aquilus, Larus marinus, Lar. maculipennis, Dendrocygna autumnalis, Dend. fulva, Anas chiloensis, Erysmatura dominica, Phaeton aethereus, Phetusa erythrorhynchus, Heliornes surinamensis, Luerquedula cyanoptera, Spatula clypeata, Mergarornis squamigera, Sternoclyta cyanopectis

Currentes — Rhea americana.

Aves: exemplares, comprehendidos os Trochilideos. 3:641
Ninhos: comprehendidos os da familia dos Trochilideos 157

Fazem parte d'esta Secção :

a) Aves em frascos ;
b) Esqueleto de trochilideo ; Craneos de rapaces, grallatores e natatores ;
c) Ovos de rapaces, zygodactylos, passeres, gallinaceos, grallatores e natatores.
Herpetologia

Reptis saurios — Caiman, Salvator merianac, Salv. nigropunctates, Alligator sclerops, Monitor, Varanus, Camœleon.
» **chelonios** — Chelone midas, Chelodina Maximiliana.
» **batrachios** — Ceratophrys dorsata, Brachycephalus plumbeum, Bufo canaliferus.

Reptis : exemplares. 20

Fazem parte d'esta Secção :

a) Reptis em frascos ;
b) Craneos, maxillas e outros ossos ;
c) Pelles de Boa constrictor.

Ychthyologia

Malthœa longirostrus, Diodon hystrix, Hippocampo.

Peixes: exemplares	5
Peixes seccos.	

Resumo dos Vertebrados

Mammiferos	120
Aves (comprehendidos os trochilideos) . . .	3:641
Reptis	20
Peixes	5
Total dos Vertebrados. . .	3:786

Entomologia

Dipteros — Bibio, Tipula, Acanthomera, Hermetia, Chrysochlora, Raphiocera, Gyphomya, Stratiomys, Odontomya, Acanthina, Pangonia, Tabonus, Acanthocera, Chrysops, Chiromyza, Argyromœla, Comptosia, Anthrax, Septogaster, Lampria, Andrenosoma, Aphestia, Grax, Mallophora, Promachus, Lecamia, Ommatius, Cristalis, Mesograpta, Volucella, Hystina, Blepharipeza, Willistonia, Belvosia, Juninia, Phorocera, Anisia, Exorista, Chætolyga, Telothyna, Leptoda, Gymnostylia, Sarcophaga, Dexia, Mesembrina, Lucilia, Compsomya, Pyrellia, Ochromya, Spilogaster, Musca, Stomixys, Homalomya, Aurotoxa, Ortalis, Richardia, Curtonotum, Cordylogaster, Colobata, Tanipeza, Lauxania, Stenopterina, Ornithomya.

Exemplares: (Generos mencionados e especies) cerca de 200

Lepidopteros — Morpho, Caligo, Eryphanis, Papilio, Archomas, Perydromia, Cybdelis, Epiphile, Perisama, Callithea, Megalura, Dynamine, Adelphæ, Chlorisse, Protogormis, Siderone, Dynastor, Steronia, Lymanopoda, Gromophila, Corades, Lyropteryx, Zeonia, Helicopis, Thecla, Mesosemia, Entheus, Erycides, Myscelus, Castnia, Hecatesia, Orthio, Pachygonia, Ællopus, Philampelus, Ambulyx, Amphonyx, Anceryx, Protopane, Aneurocampa, Attocus, Urania, Nyctalemus, Thysamia, Anvea, Pyrrhamoca, Doxocampa, Eunica, Megistanis, Lybithino, Perente, Colias, Perio, Smerinthus, Prepona, Protogonnis, Histroca, Prymoca, Cosmosoma, Be-

lemnia, Calonotus, Antichloris, Trichura, Macrocnema, Tipulodes, Charidea, Angyrocides, Dinia, Hycla, Euceron, Caralis, Sangala, Phalasia, Micrattacus, Nystalœa, Seca, Crino, Oiketicus, Blosyris, Cyclogramma, Catagramma, Phlœocaris, Dilophonota, Mollipo, Pseudosphinx, Enyo, Pachylia, Hypperchirio, Eumœus, Pieris, Eurema, Nathalis, Callydnas, Gonopteryx, Sphinx, Apatura, Agraulis, Agnonia, Anarthia, Amphyrene, Tangetis, Ceratinia, Ithomia, Pyrameis, Euptoseta, Fulgurodes, Nipteria, Sabulodes, Phyllodonta, Boarmia, Ira, Acanthodicæ, Azelinæ, Erosinæ, Hemiceras, Laurentiæ, Rhopalodes, Coryciæ, Cidariæ, Apiciæ, Eprone, Nephodia, Sybarites, Artace, Deiopera, Cyllopoda, Conchylodes, Sparagmio, Anarmodia, Margarome, Sameo, Phibalopteryse, Scotosia, Micromo, Œdiodes, Eudioptis, Cliniodes, Agathodes, Mychonia, Cratoplastes, Thyatyra, Buarmia, Nelo, Sericoptera, Pantographa, Phasis, Oxydia, Plateia, Lebeda, Ecpautheria, Asthena, Ypsypetes, Plectrona, Sennothisa, Catopsilia, Thynule, Hesperocharis, Pyrrhogyra, Vanessa, Euryades, Opsiphanes, Heliconnis, Anoea, Dismorphia, Argynnis, Pie, Heterosais, Thyridia, Mechanites, Episcada, Hymenites.

Exemplares: Generos mencionados (lepid. diurnos, nocturnos e crepusculares) especies e duplicatas, cerca de 6:500

Nevropteros — Œschna, Gynacantha, Cyclophylla, Libellula, Pantala, Orthemis, Erithenus, Tramea, Tholymis, Dythenus, Macrothemis, Micrathyria, Erythrodiplax, Uracis, Perithemis, Calopteryx, Argya, Agrion, Heteragrion, Acanthagrion, Podagria, Oxyagrion, Telagrion, Hœterina, Mecistogaster, Pseudostigma, Hemerobius, Ascalaphide, Myrmeleo, Rhaphidia, Chauliodes, Perla, Halaside.

Exemplares: (Generos mencionados e especies) cerca de 200

Hemipteros — Pachycoris, Orsilochus, Macraulax, Angocoris, Cyrtomemis, Thyrcocoris, Corinclæna, Stiretrus, Stictonotus, Enopta, Ophomus, Dinidor, Oxynotus, Thynacantha, Enthyrhyncus, Mezara, Strachia, Mormidea, Euschistus, Prooxys, Zamara, Peromatus, Edessa, Ægius, Accratodes, Chlorocoris, Philæa, Dysodius, Spartocera, Pachylis, Phymata, Hesus, Resthema, Corynocoris, Prisnotus, Apomerus, Diplodus, Hermartes, Herega, Ectricodia, Sirthenea, Paryphes, Anisosceles, Spiniger. Sipolisi, Phlægaster, Brachyhynchus, Sinea, Eucmyrtus, Meropachys, Copius, Diactor, Amposcelis, Acanthocephala, Coryzoplatis, Menenotus, Cebrenis, Hypselonotus, Clavigrella, Anasa, Craspeductons, Largus, Margus, Lygæns, Leptosceles, Calorintha, Perimetha, Stoluptus, Fadera, Dysdercus, Arinocoris, Ficana, Ryzorhynchus, Mylias, Harpactor, Mirides, Mononyx, Borbocoris, Cryptoricus, Barozii, Diplonychus, Discocephala, Anisops, Nepa, Zartha, Belostonia, Tympanoterpes, Cicada, Proarna, Fidicina, Epora, Carineta, Phenax, Fulgora, Hottinus, Thrictus, Fulgoride, Eucophora, Sphœnorhina, Tomaspis, Moncephora, Sephisus, Proconia, Diestostema, Oneometopia, Thera, Cicus, Gypona, Aulacizes, Tyloziga, Tylozigus, Tettigonia, Ormenis, Dictyophora, Lappida, Ceniptycha, Enalthæ, Umbonia, Ceresa, Hebetica, Darnis, Cambomorpha, Mambracis, Aconophora, Scaptomorca, Lycoderes, Anchophyllum, Æda, Athalion, Oxygona.
Larvas e ovos de hemipteros.

Exemplares: (Generos mencionados e especies) cerca de 1:000

Orthopteros — Labidura, Chelidura, Forficula, Blatta, Periplanata, Epilampra, Kakerla, Brachycola, Monachoda, Phoraspis, Blabera, Empusa, Mantis, Acanthops, Ceratinoptera, Stagmaptore, Bacteria, Anapholebis, Cerois, Panchlora, Cladoxerno, Prisopus,

Xerosoma, Proscopia, Xiphicera, Elæochlora, Tropidonotus, Opsomala, Truxalis, Rhomalea, Antiphon, Boniopoda, Lophœris, Tropidaris, Acridium, Sphingonotus, Caloptemus, Ardipoda, Stenobothrus, Pezolettix, Pterochroza, Acanthodis, Phanæroptera, Meroncidius, Pseudophyllium, Pycnopalpa, Locusta, Psyra, Agræcia, Conocephalus, Listroscelis, Gryllus, Gryllotalpa.

Exemplares: (Generos mencionados e especies) cerca de 400

Coleopteros

Pentameros — Eucranium, Megathopa, Canthon, Sisyphus, Stenodactylus, Deltochilum, Hybonia, Uroxys, Scatonomus, Canthidium, Chocridium, Copris, Phanaeus, Dendropemon, Eurysternus, Pinotus, Gromphas, Oruscatus, Bolbites, Phileurus, Trioplus, Onthecus, Chalcocopris, Ontophagus, Aphodius, Oxyomus, Saprosites, Atænius, Medon, Aegidium, Coelodes, Hapalonynchus, Athyreus, Bolboceras, Geotrupes, Phoberus, Trox, Acanthocerus, Sphaeromorphus, Lichnia, Tratoscelis, Aclopus, Hoplia, Symmella, Temnostoma, Astaena, Athlia, Phytolaema, Macrosoma, Maypa, Lyogenis, Dasyus, Hylarianus, Homalochilus, Cyclocephala, Dyscinetus, Dicrania, Barybas, Tlectris, Ceraspis, Faula, Ancistrosoma, Diplotaxis, Anoplosiagum, Clavipalpus, Philocaena, Isonychus, Macrodactylus, Manopus, Chariodema, Rhinaspis, Alvarinus, Lachnosterna, Phytalus, Polyphilla, Cyclidius, Inca, Trigonopeltastes, Epictinaspis, Anomala, Pachytellus, Strigoderma, Rutela, Odontognathus, Pelidnota, Plusiotes, Chalcopletis, Chrysina, Chrysephora, Macropoides, Losiocala, Areoda, Oogenius, Modialis, Platycelia, Brachysternus, Tribostelles, Sulcipalpus, Callichloris, Bolax, Leucothyreus, Evanos, Geniates, Dachy-

lus, Angoderia, Stenocrates, Podalgus, Ligyrus, Aphonus, Scaptophillus, Bothynus, Corynoscelis, Oryctomorphus, Piloboderus, Heterogomphus, Podischnus, Enema, Strategus, Xylorietes, Megaceras, Cœlosis, Golofa, Dynastes, Degasoma, Aegopsis, Agaocephala, Lagochile, Ometis, Antichira, Dorysthetus, Thyridium, Chlorota, Enemida, Blædia, Tiarocera, Allorhina, Cotinis, Gymnetis, Stelhodesma, Euphoria, Erirhipis, Brachinus, Agra, Oxycheila, Cicindela, Aruara, Tycnochilo, Odontochila, Euprosopus, Hiresia, Euryoda, Oxygonia, Peridescia, Chilonycha, Eucallia, Tetracha, Phacoxantha, Pseudoxychila.
Chiloxia, Carabus, Brachycoclus, Calosoma, Ctenostoma, Asporina, Chlaenius, Stenous, Stenocrepis, Cnemalobus, Scelodontes, Cascelluis, Tetraodes, Barypus, Telecium, Cardiophthalmus, Callida, Cymindis, Dromius, Plagiotelum, Variopalpus, Blecrus, Lebia, Eurycoleus, Lia, Tetragonoderus, Cimendis, Pseudoglilia, Casnonia, Leptotrachelus, Calophaena, Galerita, Trichognates, Polystichus, Helluomorpha, Pleuracanthus, Pheropsophus, Coptodera, Tachyteles, Catascopus, Euceladus, Morio, Catapiesis, Tasimachus, Homalomorpha, Molabrus, Tœniolobus, Scarites, Listropus, Oxystomus, Stratiotes, Camptodontus, Nyctosyles, Clivina, Ardistomis, Aspidoglossa, Brachygnatus, Panagacus, Coptia, Loricera, Cratocara, Anisodactylus, Coptorhina, Anisotarsus, Notiobia, Trichopselaphus, Paramecus, Barysomus, Selenophorus, Pangus, Hypolithus, Harpalus, Acupalpus, Oxycrepis, Microcephalus, Ieronomorpha, Pœcilus, Omaseus, Platysma, Steropus, Pterostichus, Amara, Antarctia, Laemosthenes, Calathus, Platynus, Stenognathus, Colpodes, Oxyglossus, Onychopterygia, Tropopterus, Stenomorphus, Togonus, Meryodes, Dermestes, Anchonoderus, Lachnophorus, Leucophaneus, Telocharis, Bembicidium, Leptinopterus, Sclerognathus, Scortizus, Xexaphyllum, Pholidotus, Chiasognathus, Steptrocerus, Proculus, Proculejos, Passalus, Phoroneus, Poendacanthus, Undulifer, Pertinax, Spasalus,

Paxillus, Neleus, Neleides, Vatinius, Petrejus, Euchroma, Gyascutus, Halecia, Pelecopselaphus, Chrysethes, Hippomelas, Epistomentis, Hypoprasis, Psiloptera, Zemina, Conognatha, Ectinogonia, Aglaostola, Chalcopæcila, Cynira, Melanophilla, Anthaxia, Curis, Hyperantha, Polycesta, Tyndaris, Ocypetes, Acmaeodera, Actenodes, Chrysobothris, Paragrilus, Mastogenius, Brachys, Taphrocerus, Lius, Pachyschelus, Callimicra, Leiopleura, Drapetes, Lissomus, Corydon, Amorphosoma, Amyia, Rhæboscelis, Stenogaster, Agrilus, Chalcolepidius, Adolocera, Dilobitarsus, Oftaleus, Sacon, Anaissus, Tibionema, Calaïs, Hemirhipus, Monocrepidius, Aeolus, Heteroderes, Oistus, Heterocrepidius, Anoplischius, Ischiodontes, Atractodes, Dicrepidius, Eudactylus, Semiotus, Pyrophorus, Tetralobus, Rhysorhynus, Anchastus, Grammophorus, Deromecus, Somomecus, Potamochilus, Aptopus, Horistonotus, Esthesopus, Hypodesis, Cardiorrhinus, Tomocephalus, Probothrium, Ludius, Orthostethus, Cosmesus, Agriotes, Glyphonyx, Cylindroderus, Physodactylus, Scaptolenus.

Rhipidocera, Artematopus, Helodes, Scirtes, Hydrocyphon, Ptylodactyla, Lycus, Calopteron, Eros, Lamprocera, Cladodes, Dryptelytra, Calyptocephalus, Ethra, Lucernula, Lucidota, Photinus, Cratamorphus, Aspidosama, Amydetes, Amythetes, Photuris, Phengodes, Chauliognathus, Callianthia, Telephorus, Silis, Ooentilus, Lobetus, Collops, Mallachius, Brachydia, Chalcas, Danacœa, Cymatodera, Procera, Derestenus, Serrigerus, Clerus, Cleronomus, Tarsostenus, Pelonium, Icnea, Platynoptera, Necrobia, Corynetes, Atractocerus, Ptinus, Trigonogenius, Gibbium, Anobium, Cathorama, Cetorama, Calymmoderus, Cupes, Trachelus, Polycaon, Megacephala, Ctenodactyla, Hellus, Brachinus, Agra, Corsyra, Plochionus, Searites, Chlœnis, Agonum, Gyrinus, Tropisternus, Quedius, Philonthus, Pæderus, Silpha, Leionota, Hister, Trogosita, Palœtes, Pholidotus, Passandra, Ontherus, Gymela, Astœna, Plectris, Mimela, Phenomeris, Cratophus, Cnemida,

Oryctes, Polidischius, Cetoma, Sternocera, Julodis, Chrysochroa, Cyria, Halecia, Buprestis, Colobogastes, Chrysobothris, Chrysestes, Emathion, Tylacosternus, Campsosternus, Melanoxanthus, Cryptohypuus, Limonius, Synaptus, Rhipisoma, Hyas, Axina, Strongylium, Oomorphus, Altagenus, Anthrenus, Chelonarium, Rosedindron, Dermestides, Elmides, Emis, Pomatophilus, Pelonomus, Parnus, Heterocerus, Mecoglossa, Lichnus, Anoplites, Chalepus, Acentroptera, Cybister, Hydrophilus, Tropisternus, Hydroporus, Celina, Laccophilus, Colymbetes, Agabus, Copelatus, Dytiscus, Hydaticus, Hydrochares, Hydrobuis, Philhydrus, Berosus, Cyclonotum, Cercyon, Aciluis, Gyrinus, Gyretes, Dinentes, Falagria, Leptusa, Hoplandria, Aleochara, Polylobus, Heteroglossa, Myrmedonia, Oxypoda, Homalota, Hyobates, Bucephala, Phlœopora, Gyrophaena, Hyponomus, Myllœna, Coproporus, Hypocyptus, Philonthus, Belonuchus, Xantholinus, Staphylinus, Oreophilus, Ocypus, Trigonopselaphus, Trigonophorus, Xanthopigus, Philothalpus, Plociopterus, Sterculia, Eulissus, Brachyderus, Agerodes, Tachinus, Conurus, Glenus, Erchomus, Quedius, Lathrobium, Cryptobium, Stilicus, Scopeus, Apocellus, Lithocharis, Dacnochilus, Stenus, Osorius, Bledius, Platystelhus, Oxytelus, Trogophlœus, Omalium, Lispinus, Eleusis, Isomalus, Leptochirus, Hamotus, Hypotelus, Glyptoma, Necrodes, Silpha, Scaphidium, Lioderma, Homalodes, Epierus, Perilopa, Mystrops, Epurea, Spsolutus, Psilotus, Stelidota, Pocadius, Omonta, Camptodes, Hebascus, Meligethes, Cybocephalus, Pallodes, Cryptarcha, Ips, Colobicus, Clinidium, Rhysodes, Lathridius, Corticaria, Litargus, Triphylus, Byturus, Leontolobus, Arthrobrachys, Trigonopeplus.

Heteromeros — Hylithus, Thinobatis, Arthraconus, Salax, Aspidolobus, Evanisomos, Melanophorus, Idiopsis, Geoborus, Nictopetus, Nyctelia, Callinthra, Psectrascelis, Cerostena, Aulacodera, Physogaster, Entomochilus, Opatrinus, Blapstinus, Scaptes, Trichoton,

Phaleria, Calymnus, Eledona, Diaperis, Hoplocephala, Platydema, Alphitophagus, Peneta, Phrenapates, Tribolium, Allegoria, Oligocara, Antimachus, Melania, Uloma, Alphitobius, Ulosonia, Hgpophlœus, Astylus, Dasytes, Akis, Meloë, Pseudomeloë, Lopherus, Henicoderma, Nosoderma, Hexagonochillus, Psammetichus, Diastoleus, Scotobius, Grammicus, Discopleurus, Homalodera, Ammophorus, Eleodes, Nycterinus, Pelecyphorus, Euschides, Cardiogenius, Gyriosomus, Scotinus, Praocis, Platesthes, Coniontis, Crypticus, Diastolinus, Taphrosoma, Nyctobates, Tauroceras, Zophobas, Tenebris, Sitophagus, Campsia, Blapisa, Acropteron, Apocrypha, Lœna, Heliophylus, Heliophygus, Eucamptus, Hegemonæ, Sphacrolus, Gomodera, Phymatodes, Anædus, Cyrtosoma, Thecacerus, Camaria, Pyanizia, Cyphonotus, Spheniscus, Dicyrtus, Pœcilesthus, Lobopoda, Allecula, Prostenus, Lystronychus, Xystropus, Nilio, Lissodema, Statira, Orchesia, Scraptia, Dasyotomorphus, Mitrelabrus, Eurygenius, Anthicus, Strongylium, Heploptera, Mordella, Mordellistena, Pelecotomoides, Emenadia, Allecula, Cistela, Prostenus, Horia, Mylabris, Tetraonyx, Calopasta, Epicanta, Lytta, Nacerdes, Endophlœus, Cantharis, Elithia, Bradymerus, Upis, Anœdus, Sphærotus, Serropalpus.

Tetrameros — Parandra, Erichsonia, Hypocephalus, Psalidognathus, Meroscelisus, Enoplocerus, Orthomegas, Macrodontia, Titanus, Ancistrotus, Acanthinodera, Aulacocerus, Ctenoscelis, Trachyderes, Dicranoderes, Ancylosternus, Oxymerus, Hephialthes, Anacanthus, Polyoza, Monodesmus, Microplophorus, Trichoderes, Myzomorphus, Mallaspis, Callichroma, Malacopterus, Achryson, Eurymerus, Torneutes, Psygmatocerus, Metopocœlus, Hammatochaerus, Grammicosum, Pantomalus, Thymatioderus, Chlorida, Eburia, Eburodachrys, Orion, Criodion, Xestia, Butherium, Elaphidion, Sphaerion, Trichophorus, Mallocera, Gnomidolon, Ibidion, Compsa, Haruspex, Acmaeps, Gaurotos, Euryptera, Cheloderus,

Sibylla, Necydalopsis, Callisphyris, Rhinatragus, Oregostoma, Odontocera, Acyphoderes, Stenygra, Platyarthron, Trachelia, Smodicum, Pæcilopeplus, Tropidosoma, Ctenodes, Pteracantha, Sternacanthus, Lophonocerus, Ceragenia, Pteroplatus, Crioprosopus, Stenaspis, Deltaspis, Purpuricenus, Tiglosis, Sphaenothecus, Entomosterna, Eriphus, Aegoidus, Dorcacerus, Phaedinus, Dendrobias, Chrysoprasis, Trichrons, Pronuba, Stenosphenus, Callideriphus, Ancylocora, Plestrocerum, Acrocinus, Macropophora, Nevelytus, Tillomorpha, Listroptera, Rhopalophora, Cosmisoma, Elaphopsis, Ornithia, Molosoma, Pyrodes, Esmeralda, Calocomus, Prosternodes, Solenoptera, Ceroctonus, Pœcilosoma, Callipogon, Novosoma, Stenodontes, Mallodon, Chiasmus.

Barytopus, Lissonotus, Rachidion, Megaderus, Heteropalpus, Cometes, Microcleptes, Monoïlema, Ptychodes, Taeniotes, Deliathis, Hammatoderus, Adetus, Tapesina, Pteroplius, Rhaphiptera, Pterocoptus, Desmiphora, Terchaetes, Estola, Pogonocherus, Trachysomus, Oneideres, Megabasis, Pythais, Compsosoma, Tessarcephora, Aerenea, Brachychilus, Hypselomus, Jamesia, Tybalmia, Hypsioma, Trestonia, Onocephala, Perma, Pachyreza, Amphion, Hippopsis, Amillarus, Oreodera, Pycnomorphus, Alphus, Dryoctenes, Myoxomorpha, Steirastoma, Hedypathes, Orthoscema, Compsocerus, Unxia, Euryprosapus, Chenoderus, Cyllene, Coremia, Callidium, Calydon, Ochrestes, Xylotrechus, Scaphidomorphus, Phacellocera, Chalastinus, Gymnocerus, Anisoceras, Cyclopeptus, Onychocerus, Polyrrhaphis, Platysternus, Lagocheirus, Alcidion, Paracus, Leptostylus, Trypanidius, Atrypanius, Tetraopes, Hemilophus, Amphionyca, Isomerida, Phœbe, Cirrhicera, Dylobolus, Aerenica, Gryllica, Callia, Hebestola, Dectos, Leiopus, Lepturges, Cosmetoma, Probatius, Oedopeza, Chæetanes, Oxathres, Astynomus, Entrypanus, Triconius, Toronacus, Pteridotelus, Psapharochrus, Acanthoderes, Scleronotus, Scythropopsis, Synchyzopus, Co-

lobothea, Carterica, Epiclines, Plocamocera, Apate, Sinoxylon, Xylopertha, Bostrychus, Lyctus, Rhizopertha, Endecatomos, Xylographus, Cis, Ceracis, Ennearthron, Epitragus, Phytophilus, Hypselopsis, Naupactus, Metoponeurus, Pterotropis, Pandeleticus, Menetypus, Polydacrys, Plectrophorus, Hadromerus, Strophosomus, Macromerinthus, Amphideritus, Mimographus, Platyaspistes, Pachneus, Macropterus, Compsus, Platyomus, Eustales, Exophtalmus, Rhigus, Cydianirus, Polyteles, Eutimus, Phaedropus, Tetrabothynus, Lachnopus, Brachyomus, Lordops, Alocorrhinus, Euscapus, Merodontus, Tomorhinus, Epicaerus, Graphorrhinus, Hyphanthus, Psalidodes, Eustylus, Malanotus, Megalometis, Entyus, Strangaliodes, Bastactes, Cyphus, Hypsonotus, Euschoinus, Oligocyrtus, Enides, Lasiopus, Diaprosomus, Tropidorrhinus, Euryomus, Eurylobus, Conothorax, Cylindrorrhinus, Adioristes, Listroderes, Seotebonis, Oncorhinus, Anchonus, Eudins, Eudiagogos, Eugnathus, Promecops, Piazurus, Lixus, Ileomus, Apleurus, Sternuchus, Tylomus, Hypera, Tylopterus, Lophotus, Cephalalges, Larinosomus, Eublepharus, Heilipus, Laccoproctus, Eurrhinus, Eurhinoides, Hoplorhynchus, Amalactus, Ambates, Oxycorynus, Petalochilus, Iphipus, Rhopalomerus, Dicordylus, Homalocerus, Apion, Attelabus, Rhynchites, Erodiscus, Otidocephalus, Ludovix, Anthonomos, Botanobius, Lonchophorus, Prionomerus, Laemosaceus, Rhinastus, Cholus, Aphyorramphus, Archarias, Amerrhinus, Callinotus, Solenopus, Sclerosomus, Cryptaspis, Perideracus, Desmosomus, Conotrachelus, Rhyephenes.

Maemactes, Collabismus, Botrobathis, Gasterocercus, Oncoscolis, Cleogonus, Rhyssomatus, Chalcodermus, Strongylopterus, Pterygomus, Empleurus, Gyoperus, Metrania, Acalles, Tylodes, Ulosomus, Pseudomus, Cryptorrhynchus, Cælosternus, Cylindrocorynus, Macromerus, Cnemargus, Rhinochenus, Cratosomus, Polyderces, Homalonotus, Dionychus, Haplopus, Chrysolopus, Amphyastes, Ancy-

lorrhinchus, Cholus, Epipedodorrhinus, Cœlosternus, Pinarus, Piazurinus, Zygops, Dyorigomerus, Baris, Centrinus, Strongylotes, Maderus, Poteriophorus, Sphœnophorus, Rhyncophorus, Amerrhinus, Golenopus, Peridœrius, Callinotus, Desmophorus, Rhyephenes, Mesocordylus, Brenthus, Ulocerus, Ptycoderes, Dorabrachius, Enoplocerus, Sternodontes, Naosoma, Anacolus, Psygmatocerus.

Coccoderus, Hammatochirus, Etromathum, Nyssicus, Pantomallus, Chlorida, Stiliceps, Eburia, Eburognata, Ophiostomis, Tricophorus, Orthostoma, Compsocerus, Eburodiacrys, Piezocera, Octopolon, Hemimalus, Hylotrupes, Clytus, Rhopalophocera, Chrysoprasis, Phodinus, Plerophus, Oncoderas, Apocoptona, Periergates, Pachypeza, Anisocerus, Dryoctenes, Polyraphis, Alcidion, Leptoetyllus, Graphidurus, Nyssodrys, Astynomus, Hyletus, Lema, Themesia, Megalostonus, Cryptocephalus, Homophæta, Diabrotica, Eumolpus, Typophorus, Typophora, Biorus, Endocephalus, Phœdon, Iphimeis, Chalcophana, Zygogramma, Myocorina, Deuterocampta, Doryphora, Tauroma, Desmonota, Dolicotonia, Mesomphalia, Pœcilaspis, Chelimorpha, Selenis, Cassida, Cassidea, Coptocycla, Pselophacus, Megyschyrus, Megalodaena, Monocesta, Cephalodonta, Cephaloleia, Arescus, Chalepus, Stethispa, Amplipalpa, Coccimorphus, Ischyrus, Ægithus, Morphoides, Iphyclus, Cypherotylus, Erotylus, Micerotylus, Zonarius, Homœotylus, Adalia, Harmonia, Daulis, Dioria, Euphlea, Zenoria, Lychnophaes, Ambrotodes, Stenomela, Microteca, Trocanolota, Pyxis, Lioplasis, Elithia, Crimissa, Notozona, Crepidodera, Systena, Chlamophora, Rasona, Haltica, Phrynocephala, Cacoscelis, Plectrotetra, Disonycha, Caeporis, Lactica, Lactina, Diphanlaca, Longitarsus, Aphtona, Phillotreta, Oxygona, Oenoscelis, Sophræna, Blepharida, Aspicela, Asphaera, Omophoita, Oedionychis, Monoplatus, Lithonoma, Rhinotmetus, Physimerus, Ommamotus, Homotyphus, Octogonotes, Allochroma, Omolotus, Hypolampis, Sphœroderma, Colaspis, Epiphyma, Cam-

pylochira, Aletes, Corystea, Chalcophana, Guyanica, Eriphile, Brevicolaspis, Pedoxinus, Tidia, Eumolpus, Polysarcus, Argolis, Amasia, Dictyneis, Myochrons, Neocles, Glyptoscelis, Sphœropis, Pachnephorus, Paria, Melina, Colaspoides, Sphaeroplacis, Phœdon, Plagiodera, Calligrapha, Zygromma, Cosmogramma, Leptinotarsa, Eugonycha, Labidomera, Proscicela, Spermophagus, Bruchus, Aulacoscelis, Psathyrocerus, Lema, Griburius, Metallactus, Mastastelhus, Agathomerus, Crioceris, Megascelis, Atcledera, Megalopus, Anamœa, Minturnia, Megalostomus, Gynandrophthalma, Stereoma, Urodera, Saxinis, Aratea, Ischiopachys, Metastyla, Desmogramma, Strichosa, Euparocha, Elytrosphaera, Cryptocephalus, Chlamys, Chrysodina, Chalcoplacis, Poropleura, Sphaerocharis, Lamprosphœrus, Chalcophyma, Tedra, Amosis, Agrianes, Iphyclus, Steneurus, Coyteria, Noda, Lamprophaes, Rhadophurus, Scaphygenia, Heterostosmis, Coscinoptera, Euryscopa, Proctophana, Pnesthes, Dacrys, Babia, Tellena, Lepronota, Teaspes, Promecosoma.

Aracyntha, Metaxionycha, Prionodera, Peltophorus, Copturus, Timorus, Nanus, Centorhynchus, Peridinetus, Oxyanus, Cambus, Diorymerus, Belopocus, Sitophilus, Mesocordylus, Rhynchophorus, Scyphophorus, Cylindrocerus, Leptoschœnus, Nertus, Parallelosomus, Conoproctus, Madarus, Sphenophorus, Cossonus, Hylesinus, Phlœotribus, Phlœtrupes, Crypturgus, Phlœoborus, Tomicus, Amphicramus, Cesserocerus, Tribotropis, Belopherus, Rhaphirhynchus, Belorhynchus, Cephalobarus, Brenthus, Ischnocerus, Dinocentrus, Systaltocerus, Lagopezus, Corrhecerus, Birrhus, Phaenithon, Toxonotus, Cratoparis, Arthrocerus, Phyllechthrus, Phyllobrotica, Chrysomelides, Exora, Scelida, Procalus, Chtoneis, Luperus, Luperodes, Monoxia, Gallerucella, Biblitea, Schematiza, Dircema, Monocesta, Cœlorema, Coraia, Alphidia, Metacycla, Cerotoma, Nestinus, Ædiopalpa, Homalispa, Xenispa, Cephaloleia, Alurnus, Metazycera, Microdonta, Pseudispa, Cephalodonta, Odontota, Arescus, Octo-

toma, Physocoryna, Microrhopala, Pentispa, Heterispa, Acanthispa, Uroplata, Euprionota, Charistena, Canistra, Dolichotoma, Mesomphalia, Calaspidea, Porphyraspis, Himatidium, Calliaspis, Spelophora, Calyptocephala, Tauroma, Chelymorpha, Omoplata, Selenis, Omaspides, Brachypteres, Colastus, Constelus, Macrostola, Carpophilus, Rhizophagus, Paromia, Phalacrus, Olibrus, Temnochila, Trogosita, Batonota, Physonota, Ischyrosonyx, Elytrogona, Hybosa, Coptocycla, Psalidonota, Asteriza, Zonarius, Priotelus, Homoiotelus, Ischyrus, Mycotretus, Pselaphacus.

Trimeros—Exoplectra, Epilachna, Neda, Arthrolips, Clypeaster, Corynomalus, Amphiæ, Epipocus, Stenotarsus, Megilla, Coccinella, Eriopsis, Cleothera, Scymnus, Brachyacantha, Briaxys, Cleothera, Chnoodes.

Coleopteros: Generos mencionados e especies, cerca de 36:000

Conchyliologia

Bulimus, Cuma, Monocerus, Strombus, Pyrula, Murex, Voluta, Concholepas, Cypræa, Helix, Cerithium, Littorina, Tectarius, Cerithidea, Ampullaria, Neritina, Fissurella, Orthæliscus, Strophia, Subulina, Melampus, Chondropoma, Choanopoma, Megalomastoma, Helicina, Donax, Trochatella, Ceres.

Generos mencionados e outros mais communs, cerca de. 500

Mineralogia

Sulphur, Graphite, Carvão min., Gagato, Ambar, Flusspath, Sal mineral, Salitre, Aragonit, Pisolith, Kalkspath, Marmor, Dolomit, Magnesit, Schwerspath, Cœlestin, Selenit, Apatit, Boracit, Stassfurtit, Quartz, Amethyst, Quartz lacteo, Hornstein, Chalcedon, Opal, Grossular, Pyrop, Vesuvian, Pistazit, Orthoklas, Oligoklas, Obsidian, Pechstein, Magnesia, Glimmer, Kali-Glimmer, Andalurit, Cyanil, Augit, Hornblende, Talk, Olivin, Zirkon, Natrolit, Prehnit, Analcim, Stilbit, Chlorit, Terra porcelana, Serpentin, Lithionit, Topaz, Turmalin, Korund, Spinell, Arsenicum, Realgar, Antimonium, Scheelit, Titanit, Aurum nativum, Platina, Zinnober, Argentum nativum, Vitrum, Cuprum nativum, C. rubrum, Malachit, Cuprum Larur, C. (silicium), Cuprum (arenosum), C. (Buntkupfer), Bismutum, Plumbum (album), Plumbum, P. phosphæ, P. (Bleyglanz), Zinkspath, Stannum rubrum, Zinkblende, Nickel, Kobaltblüthe, Speis kobalt, Ferrum magnet, Eisenglanz, Ferrum rubrum, Nadel eisen, Ferrum (Braun eisen), Eisenspath (Meritin spath), Chrom, Wolfram, Tantalit, Ferrum (Titaneisen), F. (aren), Eisenkrés, Haurmannit, Psilomelan, Feldspath, Gra-

nitos diversos, Syenil, Diorit, Hornstein porphyr, Diorit porphyr, Porphyr, Gneiss, Ardos, Grauwarke, Koklensandstein, Conglomerat rubr. (antidiluvian), C. alba, Zecnstein Kalk, Sandstein, Gypsum, Wellenkalk, Anhydrit, Calx, Kenpersand inferior, Kupferkalk, Kenpergyps, Kenpersand superior, Calx (Juræ), Arena (Juræ), Mergel, Melaphyre, Trachyt, Basalt, Jaspis, Hydrotoatalit.

Fazem parte d'esta Secção:

Pedras impressionadas (animaes e vegetaes).
